

***Can Do Live: The Future of Our Earth* - Sept. 24th at 7pm ET**
Federalist Society Virtual Discussion Panel Event Description

In September/October, the Federalist Society's [[HYPERLINK "https://regproject.org/"](https://regproject.org/) \t "_blank"] is hosting four virtual discussion panels to mark the upcoming release of our new documentary, [[HYPERLINK "https://www.thesayitcantbedone.com/"](https://www.thesayitcantbedone.com/) \t "_blank"]. The film highlights some of the many regulatory barriers to innovation through real-life stories. We hope the Administrator would be interested in joining a panel discussion related to the movie, titled *The Future of Our Earth* on September 24 at 7pm ET.

Background

They Say It Can't Be Done (TSICBD) is our full-length documentary movie which looks at innovative solutions to four global problems:

- Hunger and Animal Welfare & Cell Cultured Meat
- Climate Change & Carbon Capture
- Ocean Acidification & Open Sea Farms
- Rising Healthcare Costs & 3D Printed Organs

Virtual Events

We've now concluded that an in-person premiere for the movie is unlikely anytime soon. But we are very excited to host virtual events in September/October. *Can Do Live* will be a unique event series in extraordinary times. We are bringing together innovative entrepreneurs, regulatory experts, noted academics, and intellectuals for four robust, 90 minute discussions about creative, bipartisan solutions to global challenges to our shared future. They will be:

- The Future of Our Seas - Sept. 10th
- The Future of Our Health - Sept. 17th
- The Future of Our Earth - Sept. 24th
- The Future of Our Food - Oct. 1st

All RSVPed attendees will be emailed a watermarked link of the film prior to the event. The film will set the tone for these panels but they will not primarily be about discussing the film; rather, the film will serve as a starting point for our discussion of the ideas and issues addressed through the featured stories.

Invitation to Join the Panel on 9/24

We would be honored to have the Administrator join the panel discussion for *The Future of Our Earth* on September 24 at 7pm ET. Happy to answer any questions or concerns at your convenience!
