

1 detail as possible, what is this National Cancer
2 Institute document that you say states that the
3 background level of mesotheliomas without asbestos
4 exposure is 10 to 20 per million?

5 A In the general population it was about 10
6 per million per year in the '80s, 1980s, and that is
7 based on -- I think based on the third national cancer
8 survey data.

9 Q From what organization or government
10 institution does that supposedly come from?

11 A The National Cancer Institute.

12 Q When was that published, sir?

13 A I don't remember.

14 Q Well, you do know how frequently the NCI
15 updates its publications on this.

16 When did the last one come out?

17 A I don't know.

18 Q None have come out since 1992, have they?

19 A There may be. Actually I have an article
20 that talks about that.

21 Q Well, while you are looking, and if you
