

INTER - ORGANIZATION CORRESPONDENCE

To Louisville, Kent. Attention Mr. L. G. Crunkleton From Akron
D/0020 - B/5-1
(SHOW DEPT. & BLDG. IF AKR)
 Your Letter _____ Subject _____ Date 7-25-63

Enclosed herewith are the results of liver function tests of personnel at your plant. The samples of Messrs. Compton and Collings were not satisfactory for analysis, in as much as both showed some growth of organism around the top of the serum level. Therefore, we should like to have additional specimens on these two individuals as soon as possible.

The results of the other specimens were all within normal limits.

W. E. McCormick
