

1 that.

2 Q Now, did you also take a look at another
3 thing that -- this film is called a PA; is that
4 correct?

5 A Yes.

6 Q Or an AP?

7 A This is a PA, posteriorly, anteriorly. The
8 beam goes from the back, so it is PA, posteriorly,
9 anteriorly.

10 Q Did you also look at films taken the same
11 time, September of 1980?

12 That is known as an oblique, is that
13 correct, or a lateral?

14 A It was a lateral.

15 Q Could you please tell us how a lateral film
16 is taken if I were the one having the chest X-ray
17 taken.

18 A As I said before, you put your arms up and
19 then the X-ray is shot laterally from the side
20 through, so it goes from side to side.

21 Using these two different images, we can
