GENERAL MOTORS CORPORATION

GENERAL MOTORS BUILDING

3044 WEST GRAND BOULEVARD

DETROIT 2, MICHIGAN

February 11, 1953

Dr. R. A. Kehoe
University of Cincinnati
College of Medicine
Cincinnati 19, Ohio

Dear Bob:

Can you give me any information on the
ill effects to be expected from buffing,
polishing or grinding antimony?

Do you feel the limit of .05 milligrams
per cubic meter is somewhere near right?

Do you know of any adverse industrial
experience?

Sincerely yours,

Frank
