

ing salt water intrusion into underground fresh water reservoirs, while \$50,000 was made available to study artificial rain making.

#### TRANSIT BOARD

A twenty-five member Bay area rapid transit commission was authorized and financed with \$50,000 to make a two-year study of the region's complex transport problems. A special ports commission will seek methods of increasing San Francisco Bay waterborne commerce. An amendment to existing law will permit San Francisco to

shake up its youth center administration and the legislature submitted to the people two constitutional amendments. These would authorize another \$150,000 bond issue to finance the veterans' farm and home loan program, and require all public officers to swear to a non-Communist oath—including all employees of the University of California.

## Warning Given On Botulism

### New Cases Laid to Home Canned Fish

A disease once thought eliminated in this country may break out again unless special care is taken, a University of California scientist warned last week.

It is known as botulism, which once killed many people who ate canned foods.

There have been several new cases of the disease in smoked and home canned fish, Dr. Karl F. Meyer, director of the Hooper Foundation at the University of California Medical Center, said last week.

Doctor Meyer identified one type of the disease in 1936 and helped eliminate it from the California canning industry.

The new outbreaks are known as type E, for which no antitoxin has been manufactured. Antitoxins are available for the more common types A and B.

Several deaths and many cases other than those reported may have occurred, Doctor Meyer said, because of the difficulty of recognizing symptoms of the disease.

Many of its symptoms are much like those of more common diseases, and include general muscular weakness, prostration, paralysis of the throat and respiratory failure.

He urged manufacture of an antitoxin for type E and more careful diagnosis of ailments with botulism symptoms.

## California Flag Sent to Korea

### Berkeley Soldier Plans Display at Seoul

The California State bear flag will be flying over a Berkeley GI's tent in Korea shortly—whether his buddies like it or not.

The flag has been sent to Private First Class John Rush, stationed with the Air Force in Seoul, after he wrote home that he felt that "there should be a little touch of California in Korea" to honor all the Californians fighting there.

Roy B. Gudmundson, a railway clerk living in Berkeley and deputy grand president-at-large of the Native Sons of the Golden West, airmailed the flag to Rush as part of his campaign to give the bear flag a more prominent place in the minds of California citizens.

## Police Unit Elects In San Leandro

Election of Traffic Patrolman John Cannizzaro to succeed Sgt. Fred Haller as president of the San Leandro Police Officers Association has been announced following the election meeting.

Other new officers include Lola Smith, secretary; Wilbert Williams, treasurer; Anthony Canoe, Sgt. John Ashman, Anthony Gomes, Solo Capitola and Haller, directors. The association will hold its annual ball next Saturday night.

nett, Texas, who performed square dance routines on perfectly matched horses.

**GREATER VARIETY**—Only a trifle higher on the budget scale are the draw draperies which made so sensational a debut only a few years ago. Now ready-made draw draperies come not only in plain, metallic textured fabrics, in an array of solid colors, but with matching French-pleated valances that ripple across the tops of windows, so curtain-d.

Ready-made draperies and the panels to use with them are here in greater variety than ever. It is new and correct, however, to use these old standbys a fresh way. Try colored panels with your patterned, ready-made draperies.

From a brown background, drapery, patterned with a peach-green and ivory floral, take note the ivory for panels but the deep peach one or the fresh pale green. This is a coming fall fashion for windows—one to watch.

Yellow panels... apricot...

**FLORAL SHADE**—In pottery colors and bleached, mod window shade affects pattern into bination: yellow-peach and green new decorating shades to choose in.

**Where to Find Them**

All window accessories mentioned can be found in San Francisco. Elizabeth Lawrence will tell you where. Telephone her Monday only between 9 and 5 at SUtter 1-2424, or write her care of The Examiner. With mail inquiries, please enclose a self-addressed, stamped reply envelope.
