Dear Ms. Garza:

Attached is a statement for the two and one-half hours we spent together on Friday, December 1, 1995. The time was charged at my usual rate of \$175.00.

I have begun to look through my files for any information I might have regarding vinyl chloride during the time period we discussed. I may indeed have some material, but it will take a bit of digging to confirm that I do. I will let you know if I come across any relevant records.

Sincerely,

Frank L. Mitchell, D.O., M.P.H.
