My dear Dr. Kehoe:

As secretary of the sub-committee of the Packaging Institute, dealing with problems that might arise in connection with the use of lead or lead containing alloys for tubing proprietary pharmaceuticals and cosmetics, I have been asked to contact you for any information you may be able to give us or refer us to dealing with bibliographies and other work done along these lines, with, of course, special reference to the fundamental work you have carried on.

Very truly yours

William M. Springer
Director of Research
