Re:
File No. 130C 459452-4

Dear Gene:

I have reviewed the letter of September 2, 1988 signed by David Smith asking for authorization to settle claim for \$80,000.

After considerable review of the issues involved, we are unwilling to authorize the \$80,000 settlement at this time.

Gene, please forward copies of the most recent medical reports that you have relating to treatment provided to . If you have no current medical information, please ask his attending physician for a brief narrative medical report outlining the current condition.

In addition, please consider the limited use of rehabilitation or job placement to try to get the claimant some light duty position. Any other thoughts that you may have in trying to limit our liability without full and final settlement will be appreciated.

Sincerely,

Anthony J. Colangelo
