Dear Doctor:

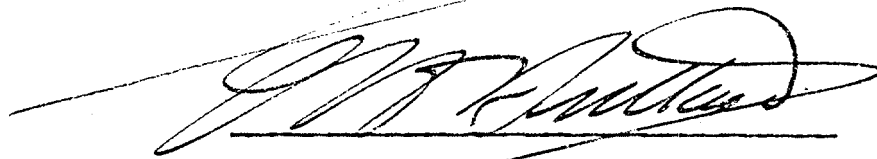

Received your letter of October 14th and with great pleasure note that you are approving our mask for use in the mixing of Ethyl Gasoline.

Thank you very much for your very laudatory remarks regarding our mask as we have spent a great deal of time developing it and are glad to know that you feel it is an improvement over other types previously employed.

Regarding the mask which we forwarded to you for your trial and test, if you have no need of the same, would you be kind enough to forward it back to this office by collect express.

Yours very truly,

E. D. BULLARD COMPANY
