

LEAD INDUSTRIES ASSOCIATION

430 LEXINGTON AVENUE

NEW YORK 17, N. Y.

June 28, 1955

SUBJECT: NOTICE OF MEETING

To the Ceramics Technical Committee of the
Lead Industries Association:

The first meeting of the newly formed Ceramics Technical Committee of the Lead Industries Association will be held in my room at the Carlton House, Pittsburgh, Pa., July 26, 1955 at 10:00 A.M.

The purpose of this meeting will be to attempt to formulate a program for the use of lead products in the ceramic industries, to be recommended to the Industry Development Committee and the Board of Directors of the Association to put it into effect. Any form of lead in any branch of the ceramic industry may be included in the program, which, if adopted, will be financed by the producers of pig lead.

The following is a list of those who have accepted membership on the Ceramics Technical Committee:

Eagle-Picher Co.	Willard Midgett
Easton Lead Co.	Arthur Knight
Evans Lead Div., National Lead Co.	John T. Ayers, Jr.
W. P. Miller & Co.	Dudley H. Haskell
Hammond Lead Products Co.	John S. Nordyke
Western Lead Products Co.	Thomas B. Blair

In addition, Mr. R. C. Bricker of E. I. duPont de Nemours & Co., although not a member of the Committee, will probably attend the first meeting to give us the benefit of his experience in developing a market for lead frits for porcelain enameling of aluminum.

Attached is a copy of a suggested program submitted by Mr. J. J. Svec, Assistant publisher, "Ceramic Industry" which may be a basis for discussion at the meeting, although it is not intended to be a finalized recommendation.

Very truly yours,

(Signature)
Secretary.
