Members of Vinyl Chloride Safety Association

Dear Member:

Plans for the 1984 meeting of the Vinyl Chloride Safety Association are well under way. Attached is a questionnaire from Dave Middleton, our program chairman, requesting your input to his program proposals for the meeting. On completion it should be returned to him at:

Norsk Hydro Polymers, Limited
Aycliffe Trading Estate
Darlington
Co. Durham DL5 6AN
ENGLAND

Phone: 032-531-5122

Your active participation is essential to the health of this organization. Prompt response is necessary if we are to recruit presenters and give them time to circulate those invaluable survey questionnaires soon enough to prepare complete surveys for the meeting.

Joë King has arranged for the meeting to be held in the Clarion Inn at McCormick Ranch on October 11 and 12. This is located approximately as shown in the attached map. The Sky Harbour International limosine service takes about 30 minutes for the journey from Phoenix International airport to the hotel at a cost of about \$8.

You should make your reservations directly with the Clarion Inn at McCormick Ranch at

7401 North Scottsdale Road
Scottsdale, Arizona 85253
Phone: (602) 948-5050
U.S. Toll Free Number: 800-528-3130

You should plan to arrive on Wednesday, October 10th.

.../2

OCC 3859

The room rate for our members will be \$60.00 per night, single or double occupancy, plus sales tax and plus a 75¢ per day local phone charge.

The hotel requires an advance deposit of the first night's rate in order to make the reservation; this may be recovered on cancellation, provided that more than 72 hours notice is given.

The hotel is well provided with recreational facilities for golf, tennis, swimming, jogging, even wind surfing on a neighboring lake.

Reservations should be made well in advance as this is the busy season for Arizona. We have a block booking for 60 rooms, in line with recent attendance, but these could all be taken if attendance increases.

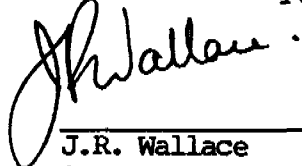

Companies who responded to the runaway reactor control and the pilot reactor venting surveys will find final versions of these surveys enclosed with this letter. Response levels were good but we can still hope for better this year.

Lists of permanent representatives and attendees at the last meeting are attached. I would appreciate hearing of any corrections or changes.

Last year's program was a full and interesting one, but with a little effort we hope to do even better this year. We also need to give some consideration to the future of the Association and its interaction with related organizations such as the Vinyl Institute; who will be clarifying their position at the meeting.

Looking forward to seeing you in Phoenix.

Yours sincerely,

J.R. Wallace
Secretary
Vinyl Chloride
