Isabelle,

Thanks for the update and looking forward to this as well. It will just be me.(b) (4)

I will have 2-4 slides in a printout that I will bring along and speak to.

Thanks again and look forward to this briefing.

Jimmy

Hi Jimmy!

I hope you are having a great week. We are looking forward to seeing you tomorrow.

I wanted to touch base and confirm that it will just be you attending the meeting tomorrow and see if you had any of the read ahead materials and slides you could send our way?

My apologies if you've already sent them, but I would love to include the read ahead in the Secretary's' Briefing book tonight.

Thank you in advance!

Izzy

Great, thanks everyone this plan sounds perfect.

I will be driving my own car, it is a (b) (6), License Plate #: (b) (6)

I will send a short read ahead and version of my slides in advance over the weekend.

Should I plan to meet you around 10:30 in the garage to allow for time to get through security and such?

FYI, here is my bio:

Jimmy Goodrich is a leading expert on technology, geopolitics, and national security with a focus on China and East Asia. He is a Senior Advisor for Technology Analysis at the RAND Corporation and a nonresident fellow at the University of California Institute on Global Conflict and Cooperation where he works on research regarding China, science and technology, and national competitiveness. Jimmy was previously the Vice President for Global Policy at the Semiconductor Industry Association (SIA) where he led the industry's supply-chain, international trade, export control, global market research, and China efforts. His work at SIA included research on Chinese industrial policy and chip industry economics, efforts to reshore domestic chip production, and navigating complex multi-national export control and other national security issues. Jimmy was also the Director for China Policy at the Information Technology Industry Council (ITI) in Washington D.C., and prior to that spent seven years in the tech sector in China. Jimmy holds a bachelor's degree in Comparative Politics and East Asian Studies from Ohio University. Jimmy is professionally fluent in Mandarin and is a Board Member of the American Mandarin Society which seeks to promote mandarin language study in the United States.

Here is a recent article I was quoted in regarding this topic: "What Slowdown? Xi Says China Must Win the Global Tech Race." (b) (4)

Thanks Garland and Happy Friday all!

Jimmy- I just wanted to confirm you plan to come by the office? If you have any prep materials for the Secretary, please send them to [@Hebert, Ashley](#) and I by Tuesday at 12pm. For slides to use during the meeting, please send them to Garland.

Thanks so much!

Izzy

Mr. Goodrich,

Greetings. We look forward to welcoming you to the Department of Energy HQ. If you are being chauffeured here, I recommend arriving via 9th St, see attached map, where I will greet you curbside and escort you through security to the executive suite. If you drive yourself, send me your vehicle plate/state of registration and we can reserve you a parking spot in the DOE garage. I will greet you there. Ms. Toye Moore will process your access badge, she is in the cc line.

Hi Izzy,

Great, if the time still works for you, it does for me. I would be happy to come by the office in person. It would just be me, and I could send the few slides I would use in advance, by tomorrow. If you need to push back the time to another date, just let me know.

Thanks so much, Jimmy!

The 19th from 11-11:30am would work great. Thank you for making this happen.

I'm looping in Garland who can help with logistics for day of!

Can you please send me who will be in attendance and anything we should make sure the Secretary is prepared with prior to the meeting.

Best,

Izzy

Thanks Jason for the intro!

Happy to provide this briefing. Dear Izzy, let me know when and where you'd like me to be for this. I could do 30 minutes or 45, depending on the Secretary's availability. I have a few slides that I would bring as printouts (5-7) and could send in advance.

Good afternoon, team!

Thank you again to everyone at LANL for an awesome visit last week. I know the Secretary really enjoyed his time with your team and I also felt very lucky that I had the chance to be apart of an amazing tour.

What if we looked to March 18th or 19th for the briefing mentioned below? Next week is tough as Sec. Wright is at CERAWEEK.

Thank you and please let me know if that timing sounds good and any details and attendees I should include.

Best,

Izzy

Adding the S1 scheduling team. We're on travel through tomorrow, but will follow up when we can to arrange.

On the policy side, send us your list as soon as possible so we can discuss with S1.

Thanks for a great visit.

Dear Jason and Dirk,

in addition to facilitating some hill briefings from Jimmy Goodrich on the Rand efforts to understand China's AI for National security efforts can you also work to have him brief DOE Leadership. Alex Fitzsimmons can help work the logistics

Thanks

Thom

Subject: Re: Thank you!

Dear Chris,

Sorry I couldn't join you but it did give you a great opportunity to interact with the team - who are outstanding! My excuse for missing your visit is attached...

We are pulling together a short list of high priority asks in terms of reconciliation, continuing resolution, and regulatory relief as requested. Looking forward to getting some amazing things done in support of our mission.

While you were in Los Alamos we had a talk from Jimmy Goodrich of Rand who has been doing open source analysis of China's security related AI- it might be worth the DOE leadership team hearing this briefing. Let me know if you are interested - we are arranging for him to brief the Hill staff.

Thom

Subject: [EXTERNAL] Thank you!

Thom-

I just wanted to take a moment to express my gratitude to you and your team for an incredible visit. While I regret you were not there to join us, it was clear that your leadership has cultivated a remarkable group of people. The thoughtfulness and depth of insight your team brought to the entire day made it an unforgettable experience.

It was particularly meaningful to start my lab tours at LANL- a place so central to American history and the spirit of innovation. Just as the team of Manhattan Project rose to meet the defining challenges of WWII, I have no doubt the team you have assembled will play a leading role in the AI race.

Thank again for your leadership.

Best,
Chris
