Onderwerp: [cciep-chemicals] [Sent on behalf of [REDACTED]@health.fgov.be] [OECD CBC] Ministerial Declaration - GFC/ICCM5 and OECD
Bijlagen: ICCM5_OECD_ENV-CBC(2023)20.en.pdf; Comments on Draft GFC Declaration, SE.docx; ENV_CBC_2023_20_Draft Declaration GFC - for MCM 2024_GFC (002).docx

Summary: Secretariat proposes a draft Ministerial declaration given support to the GFC from OECD

Status: For approval/For commenting

Deadline: 12/1/2024 12:00

Attachments: 3

Dear colleagues,

Please find in attachment 3 documents:

- Proposed draft Ministerial Declaration
- Comments from Sweden
- Comments from the Secretariat of the Global Framework on Chemicals

For your convenience, I highlighted the most important parts of the proposal in the pdf.

I propose to issue a simple and short BE message: BE supports the development of the Ministerial declaration, and suggestions from GFC secretariat and from Sweden are welcomed.

In parallel, I will consult the COM and other MS on this issue to know if anyone has strong positions on this, as BE presidency we only have to organise an informal dialogue at OECD.

Best regards,

OECD CBC Head of delegation
