REPORT OF THE INTERNATIONAL AGENCY FOR RESEARCH ON CANCER (IARC)
"MORTALITY AND CANCER INCIDENCE RESULTS OF THE EUROPEAN MULTI-CENTRIC COHORT
STUDY OF WORKERS EMPLOYED IN THE VINYL CHLORIDE INDUSTRY"

I have just received, through my contact at IARC, a 200-page document on the above Study.

It is impossible to photostat the whole document, and therefore I have copied the introductory pages, along with the 'Discussions and Conclusions' Section. There is nothing new in the Report, apart from what I have stated previously.

I hope that you will find this of interest.

Dear Dr. Bennett:

REC'D FEB 9 1990

I received a call the other day from Dr. Robert Hinderer of the B. F. Goodrich Company who indicated that you had not heard from me regarding the status of Case US 36 in the World Registry of Cases of Angiosarcoma.

I guess the reason you have not heard from me is because I have not received any requests from you, according to my files, since your correspondence of 9 November 1988. I did respond to that request on November 28, 1988; and at that time, I also pointed out a correction for my proper mailing address. Perhaps your records did not get modified; and if your request was sent to One General Street, Akron, Ohio, that probably explains why I did not receive it.

In any event, I am happy to inform you that case No. 36 in the World Registry of Angiosarcoma is very much alive and is still apparently living a reasonably normal life.

I have taken the liberty of enclosing a copy of my correspondence dated November 28, 1988, which shows the correct mailing address for GenCorp.

If you have any future requests for information regarding this, or any other case, please contact me at the above address.

Sincerely,

Roy N. Johnson, C.S.P.

Dear Dr. Bennett:

I am happy to inform you that Case US 36 - World Registry of Cases of Angiosarcoma - is very much alive and apparently living a reasonably normal life. As you probably know, this individual only had the one case of surgery for partial removal and reconstruction of the liver.

The above person worked at our Ashtabula, Ohio, plant which was closed sometime ago and subsequently sold. The name of the company GenCorp is correct, but please note the correct mailing address is as follows:

GenCorp
Corporate Safety, Health & Environmental Affairs
175 Ghent Road
Fairlawn, Ohio 44313-3300
Attn: Roy N. Johnson, C.S.P

If I can be of any further help, please let me hear from you. Let me take this opportunity to also wish you a very happy holiday season.

Sincerely,

Roy N. Johnson, C.S.P.

Dear Roy

We are preparing the new ASL Register and have tried to get information from Roy N Johnson of GenCorp, Fairlawn, Ohio, about case US.36, without success.

I shall be very grateful if you can help, or pass this on to someone who can.

We wish to know the initials of this man, whether he is still alive, and if not, the date of death. I enclose a copy of the 1989 register entry.

If we have this information within the next week (by Fax preferably) we shall be able to incorporate it in the 1990 Register.

Many thanks and best wishes for 1990

Yours sincerely

Dr Brian Bennett
