

March 26, 2025

Mr. William C. Herz  
Executive Director  
National Lime Association  
200 North Glebe Road  
Suite 800  
Arlington, Virginia 22203

Dear Mr. Herz,

As Chief Executive Officer of Lhoist North America, I hereby authorize the National Lime Association (NLA) to submit a request on our behalf for a two-year presidential exemption of our major source lime plants pursuant to Clean Air Act § 112(i)(4) from the requirements of the final rule titled: "National Emission Standards for Hazardous Air Pollutants: Lime Manufacturing Plants Technology Review" (89 FR 57738; July 16, 2024) (Lime Rule). Such exemption, if granted, would extend the compliance date from July 16, 2027 to July 16, 2029, while EPA reconsiders the Lime Rule.

The facilities in this request include the following major source lime plants owned and controlled by Lhoist North America:

Montevallo Plant (FRS ID: 110041200642)  
O'Neal Plant (FRS ID: 110008056584)  
Ste. Genevieve Plant (FRS ID: 110018008378)  
Kimballton Plant (FRS ID: 110020671450)  
Apex Plant (FRS ID: 110043816074)  
Nelson Plant (FRS ID: 110008061453)

The emissions standards subject to this exemption include hazardous air pollutant (HAP) standards for hydrogen chloride, mercury, organics, and dioxins & furans.

NLA will provide the agency with additional information on why the technology to implement the standard is not available and why it is in the national security interests of the United States to grant the exemption.

Sincerely,

A handwritten signature in black ink, appearing to read 'Philipp Niemann', is written over a horizontal line.

Philipp Niemann  
Chief Executive Officer  
Lhoist North America
