We have completed the vinyl chloride analysis of your Cherry Street samples.
The results are presented below.

<u>Sample</u>	<u>Nanograms Vinyl Chloride</u>	<u>ppm Vinyl Chloride</u>
A	4.4	0.08
B	< 3.5	< 0.07
C	< 9.1	< 0.18
D	< 3.2	< 0.07
E	< 3.6	< 0.02
F	17.0	0.10
G	3.15	0.29
H	6.7	0.58

I have reported samples B, C, D and E as "less than", this is intended to mean that vinyl chloride is at or below this level.
