

CHEMICAL MANUFACTURERS ASSOCIATION

DAVID F. ZOLL
Vice President
General Counsel

September 17, 1987

TO THE HEALTH AND SAFETY CONTACTS OF CMA MEMBER COMPANIES:

I want to urge you and other managers in your company with responsibility for organizing your company's response to new data disclosure requirements to come to Washington, D.C., for a day and a half conference, Monday and Tuesday, October 26 and 27, 1987. This conference will be held at the Westin Hotel located at 2401 M Street, N.W. (next door to CMA).

As you can see from the attached draft agenda, the CMA Office of General Counsel has designed this conference with a unique perspective. It is an opportunity for both company counsel and managers to learn from both the speakers and colleagues in attendance how others in our industry are coping with the management challenge of organizing their companies to respond to the diverse requirements they face in disclosing information about chemicals.

This is not a conference on the details of statutory and regulatory requirements. It is an opportunity to learn how you can more efficiently comply with and avoid the liability consequences of the data disclosure requirements of TSCA, OSHA, SARA Titles I and III, CMA's CAER program, CMA's Air Quality Program, and other voluntary and mandatory disclosures.

The cost to register for this program is \$125.00, which includes, coffee, tea, danish and one lunch. There will be a cocktail reception (cash bar) after the first day's program.

A block of 60 rooms has been reserved for this seminar at the Westin Hotel (202/429-2400) and will be held until September 26th. Mention CMA and you will receive a special corporate rate of \$115 per night.

Please fill out the attached registration form and join us for this special event.

Sincerely,

BOR 007406

NEW CHEMICAL DISCLOSURE REQUIREMENTS:
HOW COMPANIES ARE PLANNING TO MANAGE DATA AND REDUCE LIABILITY

October 26-27, 1987
The Westin Hotel
2401 M Street, N.W.
Washington, D.C.

PURPOSE: Our industry faces a challenge unprecedented in its complexity, scope and potential impact - a range of new mandatory requirements and voluntary programs to disclose information about our chemicals. This Conference will provide CMA member companies with a unique opportunity to learn how companies are planning to manage data and reduce liability in the face of these significant new developments.

WHO SHOULD ATTEND: While this Conference is primarily for senior corporate counsel, it will also assist managers with responsibility for organizing their company's response to these new data disclosure requirements.

Monday, October 26, 1987
