Date March 31, 1981

Subject EDC TSCA REPORTING RULE

Received a call from Sara Shapley (TSCA industry assistance officer) wanting to know how much of our EDC is sold on the merchant market and how much of that would go to "dispersive end uses".

She said that a draft reporting rule was in progress but she had convinced the Agency to let her attempt to gather the data by telephone

Jan Dopper, EDC product manager, said that we sell very little EDC and what we do sell goes to PVC producers. So no Conoco EDC would go to dispersive end uses. We sold no EDC in 1980 and expect to sell none in 1981. 1977-1978 we sold about 30MM lbs.
