Mr. Leroy Crow
Union Carbide Corporation
P. O. Box K
King City, California 93930

Dear Mr. Crow:

The men listed below have had x-rays in the X-ray Department of the George L. Mee Memorial Hospital. I am happy to report that there were no abnormal findings. In those who had had previous films, there had been no significant change.

The only exception to the above statement is on James Childress who had had a previous x-ray on 7-20-65 and then the most recent on 2-3-67. This man has old scarring and calcifications in his chest but these have remained unchanged in the recent film since the previous film 7-20-65.
