OFFICE OF THE  
EXECUTIVE SECRETARIAT

Via email followed by hard copy.

Dear Scott,

Thank you for your warm reception last week and for giving us the time to attempt to explain this burden we've been struggling with. Know I don't have to tell you how difficult government agencies can be at times – logic just doesn't seem to always fit into the equation.

All in all I think the meeting Sarah set up went quite well, especially the meeting with General Jackson who seemed to understand the language. I think he will help get the communication with the Savannah District people on a more constructive course. As I mentioned, the Corps people have not always been forthcoming so it's difficult to plot a course from the dark.

I really appreciate your offer to help and look forward to additional contact with your office – hopefully without adding painfully to your overflowing cup of problems.

Please extend my thanks and best wishes to Sarah Greenwalt and best wishes to you and yours for the balance of 2017 and beyond.

Most sincerely,

LHSjr/db

P. S. Saw Bill Warren and his family at the National on Thanksgiving day and he gives you high praise. Says he wants to be kept in the loop.
