SUBJECT Committee Meeting

REFERENCE

TO : Office Safety Committee

The OSC will meet on Thursday, December 18, at 1:00 p.m., in the 3rd floor conference room, Main Office.

At the last meeting on December 4, Bob Hammann brought before the Committee a couple of items that we will be responsible for during the last half of our service year. SAC has requested that we review the plant phone system that is now in effect during an emergency and work toward alleviating some of the problems that are encountered at present. Also, we are being asked for suggestions on ways of including employee families in safety awareness - perhaps sponsoring seminars or meetings outside the plant.

Please plan to attend the meeting on Thursday, and be prepared with ideas for the suggested action items. Also, jot down some guidelines that could be used in briefing temporary employees on safety.
