Remember all 5

—AND BE READY FOR *EVERY* PAINTING JOB!

NO. 4070 WHITE ENAMEL | **NO. 68 FLAT WHITE** | **NO. 4916 ENAMEL UNDER-COAT** | **NO. 30 Q.D. SEMI-GLOSS WALL PAINT** | **EUSTON WHITE LEAD**

• Don't tie a string on ONE finger to remind yourself how to get best results and more profit from every painting job. Get hold of these FIVE Glidden Products. You can rely on them to give you the right answer, every time.

For All Interior Use:

4070 WHITE ENAMEL **30 Q. D. SEMI-GLOSS WALL PAINT**
4916 ENAMEL UNDERCOAT **68 FLAT WALL FINISH**

These finishes are designed especially for contractors who want quality products at moderate cost. They're true whites with no blue cast—easy to tint, easy to work, quick drying, with no sags or runs, no ghosting or flashing.

For Outside Work:

EUSTON WHITE LEAD—made by an exclusive precipitate process that produces a grind many times finer than other methods, absorbs 20% more oil, covers one-fifth more area than other good white leads. Gives a whiter, smoother, more opaque finish, and clearer colors when tinted.

Remember all Five for a complete line of real Painter's Finishes to meet every interior or exterior painting need.
