Dr. Robert Kehoe
Kettering Institute
University of Cincinnati Medical School
Cincinnati, Ohio

Dear Dr. Kehoe:-

Some little time ago I sent you a copy of the manuscript I had prepared for the July issue of Virginia Fruit, and which I hoped would convey to the members of our Society the highlights of the information you gave in your address at the fruit growers' conference in Cincinnati recently. Wishing to avoid making any incorrect statements or creating an incorrect impression, I thought I had better send the manuscript to you, thinking you might look it over and make notations of any misunderstandings I might have gathered. I hope you will be able to advise me not later than July 10, as we will lock the forms and start the press work on July 14.

With best wishes, I am

Yours very truly,

W. S. Campfield
Secretary
