Chemical Division
P. O. Box 90
Nashville, Tenn. 37202

Dear Mr. Harris:

You will find enclosed Mr. Wesson's April 11 letter on vinyl chloride monomer as it relates to our solvent vinyl resins. Also enclosed is a copy of Mr. Wrenn's letter from the Department of Labor that spells out the basis for which you are exempt from the OSHA regulation when using our solvent vinyl resins in coatings.

I have asked Mr. Wheeler to call you July 18th or 21st to discuss the matter in more detail.

Once again I want to offer you our full assistance in handling your recent citation concerning VCM. Please advise if I can be of further assistance.

Yours,

D. E. Hardman
