Calidria Asbestos

Dear John:

I have had an opportunity to talk with Bernie Jast regarding the freight rates which I recorded and were commented on by Mr. Rebholtz from San Francisco. Mr. Rebholtz is correct, and Mr. Jast's records are out-of-date. Mr. Jast checked with his Traffic Department in my presence and confirmed the commodity rate via SeaLand from Coalinga to Vails Gate, New York of $2.42 per cwt and also the rail rate from Welby and Coalinga to Vails Gate in 180,000 lb. carloads of $2.55 per cwt.

Yours very truly,

Freight Rates

One of our asbestos products, RG-244, is in direct competition with a Cabot product, Cab-O-Sil M-5. To assist us in discussions with customers regarding delivered costs, I would like to know rail freight rates for Cab-O-Sil M-5 to various points from Cabot's plant in Tuscola, Illinois.

Cab-O-Sil M-5 is probably classified as "Silica, Colloidal, less than 20 lb./ft.^{3}" or "Silica, colloidal, NOIBM, less than 20 lb./ft.^{3}." Please send me, at your earliest convenience, current rail freight rates for Cab-O-Sil M-5 from Tuscola to the following points:

Los Angeles, CA	Minneapolis, MN
San Francisco, CA	Detroit, MI
Tacoma, WN	Kansas City, MO
Houston, TX	Jacksonville, Ark
Jacksonville, FL	Lenoir, NC
Tulsa, OK	New Orleans, LA
Buffalo, NY	Swanton, OH
Elizabeth, NJ	Boston, MA
Collierville, TN	Miami, FL
Milwaukee, WI	

Please call me at extension 3367 in Niagara Falls if you have any questions.

Dear Robbie:

Sorry for the delay in responding to your letter to John Myers regarding warehousing of "Calidria" asbestos products by Harwick.

As you know, at the time your letter was written we were considering the consolidation of our stocks in Columbus and Cleveland. We have done that by putting all our material in Cleveland where we have been well satisfied with both service and costs. A new location has also been established in Dallas, Texas. As a result of these moves, we now feel satisfied that we have an efficient warehouse system which serves our customers well. We do not contemplate any changes in the near future.

John and I appreciate your interest and should any need arise for warehouse service in the Akron area, we will certainly let you know.

Best regards.

Very truly yours,

Subject Rail Freight Rates For Asbestos

I have recently found that GAF in Vails Gate, NY, is paying $2.18/cwt for "asbestos shorts in bags" received from Atlas/Coalinga in 100,000 pound carloads. Our eastern customers are paying $2.48/cwt for 120,000 pound carloads of "Calidria" asbestos pellets from Welby.

Please determine if these numbers are accurate, why there is such a discrepancy, and/or whether or not our rate can be adjusted so that we can be competitive.

GAF also advised that Atlas/Coalinga has a $2.20/cwt rate from Sea Land for the same movement in 90,000 pound quantities.

Thank you for your cooperation and assistance.
