ROGER DALE BLAKE, et al.,

Plaintiffs,

v.

A-BEST PRODUCTS COMPANY, et al.,

Defendants.

CASE NO. CV98 01 0191

**SECOND AMENDED ANSWERS TO INTERROGATORIES
PROPOUNDED TO PLIBRICO COMPANY**

Defendant, PLIBRICO COMPANY ("PLIBRICO"), through undersigned counsel, pursuant to Ohio Civil Rule 33, files its Second Amended Answers to the Plaintiffs' Master Set of Interrogatories as follows:

GENERAL OBJECTIONS

1. PLIBRICO objects to the Plaintiff's interrogatories to the extent that they seek information concerning products other than those products to which Plaintiff has alleged exposure and, therefore, seek information which is wholly irrelevant to the subject matter of this action and not reasonably calculated to lead to the discovery of admissible evidence.

2. PLIBRICO objects to the Plaintiff's interrogatories to the extent that they seek "corporate knowledge" as it is impossible for PLIBRICO to set forth the collective knowledge of all of its past or present employees. PLIBRICO reserves the right to revise, correct, supplement and/or amend its answers to provide information discovered subsequent to the answers contained herein.

3. PLIBRICO asserts the following objections and incorporates each by reference into each and every answer to Plaintiff's interrogatories set forth herein:

- (a) Defendant asserts the right to object on the grounds of competency, privilege, relevancy, materiality, or any other proper ground, to the use of any said answers for any purpose, in whole or in part, in any subsequent step or proceeding in this action or any other action.
- (b) Defendant asserts the right to object on any other ground, to other interrogatories or other discovery procedures involving or relating to the subject matter of the interrogatories answered herein.
- (c) Defendant asserts the right to at any time revise, correct, supplement, or clarify any of the answers or objections set forth herein.

4. PLIBRICO objects to the instructions and definitions as outlined in the Plaintiff's interrogatories as overly broad, burdensome and not reasonably calculated to lead to the discovery of admissible evidence. PLIBRICO further objects to the instructions and definitions as set forth by the Plaintiff in that the definitions contain meanings and defined terms consistent with the Plaintiff's, and not this Defendant's, interpretation of these defined terms and/or phrases.

5. PLIBRICO objects to the Plaintiff's interrogatories to the extent that they involve matters outside of Butler County, Ohio, the geographical area at issue in this litigation, and limits its answers to Butler County, Ohio.

 - g. whether Defendant became legally responsible for the past torts of each such corporation or entity;

- h. identify each document reflecting or related to the history and/or transaction(s) set forth in answer to this Interrogatory.

ANSWER: PLIBRICO objects to Interrogatory No. 3, including subparagraphs (a) through (h) on the grounds that it is vague, ambiguous, overly burdensome, and calls for a legal conclusion. Subject to and without waiving these objections, PLIBRICO answers as follows: PLIBRICO is a successor corporation to JOINTLESS FIREBRICK COMPANY. JOINTLESS FIREBRICK COMPANY was founded in 1914 and incorporated in Delaware. PLIBRICO was incorporated in 1969 and "succeeded" JOINTLESS FIREBRICK COMPANY at that time. PLIBRICO assumed all the liabilities of JOINTLESS FIREBRICK COMPANY. During the period when certain products in the PLIBRICO product lines contained some asbestos, PLIBRICO had certain wholly owned subsidiaries in several states, other than Ohio, which operated as branch sales offices. PLIBRICO products have been sold in Ohio by wholly-owned and by independent distributors.

4. Please state whether or not the Defendant has purchased, assumed, or in any other manner acquired any of the assets and/or liabilities of any corporation or entity (such corporations or entities being limited to those engaged in the mining, selling, manufacturing, marketing or distribution of asbestos-containing products.) If so, please state the following:

- a. the name or description of each corporation, entity or assets acquired by Defendant, its state of incorporation and principal place of business, its date of incorporation, and the name of Defendant at the time of acquisition;
- b. the manner by which each such corporation, entity, or interest therein, was acquired (e.g. merger, consolidation, change of name, stock sale, transfer or purchase of assets or product line);
- c. the date of each such acquisition;
- d. the state in which each such acquisition was effected;
- e. the state law governing each such acquisition if specified by contract;
- f. whether Defendant became legally responsible for the past torts of each such corporation or entity;

- g. whether the acquisition concerned asbestos-containing products.

ANSWER: PLIBRICO objects to Interrogatory No. 4, including subparagraphs (a) through (g) on the grounds that it is vague, ambiguous, overly burdensome, and calls for a legal conclusion. Subject to and without waiving these objections, PLIBRICO answers as follows: No.

4.1 For each corporation, other than the answering defendant ("the entity"), that has at any time in the past been involved in the placing of asbestos containing products into the stream of commerce for which officers of the answering defendant's corporation have also served as officers, directors or served in any managerial position while employed by the answering defendant, state:

- a. the name of the entity involved in the placing of asbestos products into the stream of commerce;
- b. the manner in which the entity was involved in the placing of asbestos containing products into the stream of commerce (i.e., mining, milling, manufacturing, distributing, installing, rebranding, etc.);
- c. the specific products placed into the stream of commerce by the entity year by year and by brand or trade name;
- d. the name, positions and a brief description of the responsibilities of the person or persons serving the answering defendant and the entity simultaneously including the positions held with the entity and with the answering defendant.

ANSWER: PLIBRICO objects to Interrogatory No. 4.1, including subparagraphs (a) through (d) on the grounds that it is vague, ambiguous, overly burdensome, and calls for a legal conclusion. Subject to and without waiving these objections, PLIBRICO answers as follows: N/A.

EVER SELL ASBESTOS

5. Has Defendant ever engaged in the mining, manufacturing, selling, marketing, installation or distribution of asbestos-containing products? If so, please state the following:

- (a) The name of the company engaged in the activity (whether it is Defendant, Defendant's predecessor, or Defendant's subsidiary);
- (b) As to each product mined, manufactured, sold, marketed, installed or distributed, please state the following:
 - 1. The trade or brand name.
 - 2. Its identification number (model, serial number, etc.).
 - 3. The time period it was manufactured, mined, marketed, distributed or sold.
 - 4. Its physical description including color, general composition, and form.
 - 5. A detailed description of its intended use and purpose.
 - 6. A detailed description of the type package in which it was sold, listing the dates of each type of package used, a physical description of the package, and a description of any printed material or trademarks that appeared thereon.
 - 7. The percent of asbestos which it contained.
 - 8. The percent of asbestos by asbestos type (amosite, crocidolite, tremolite, anthophyllite).
- (c) The time period during which each of these products were on the market;
- (d) The material components/ingredients of each such product, giving specific or approximate percentage both by weight and by volume of each material component/ingredient (this interrogatory is not limited to the asbestos component of the product but seeks information as to the nature, weight and volume of non-asbestos ingredients, as well) of each such product;
- (e) How each of these asbestos-containing product can be distinguished from those of competitors;
- (f) A description of the physical appearance of such product;
- (g) A detailed description of the intended uses.

ANSWER: PLIBRICO objects to this interrogatory on the grounds that it is overly broad and unduly burdensome, and seeks information neither relevant to the subject litigation nor reasonably calculated to lead to discovery of admissible evidence. Subject to and without waiving these objections, Defendant answers as follows:

PLIBRICO COMPANY manufactured two asbestos-containing products, Plicast LWI-24G and Plicast Airlite, which contained 1% and 10% asbestos, respectively. The materials were packaged in 50 or 75 pound bags. These products were manufactured from approximately 1957 to 1972, with extremely limited sales. PLIBRICO bases this statement, in part, on a 1957 formula sheet for Plicast Airlite. PLIBRICO has no knowledge of prior manufacture of Plicast Airlite prior to 1957. However, photographs tendered in the asbestos litigation suggest that a product named Plicast Airlite may have existed in 1937. It is unknown whether the product contained asbestos at that time. Both products were castable refractory products used as back-up insulation in high-temperature furnaces.

PLIBRICO has seen specification sheets and a 1971 formula sheet for a 2% asbestos-containing AR Cement. PLIBRICO also possesses isolated sales documents for AR Cement, but possesses no documents which indicate that AR Cement was ever sold when, if ever, it contained asbestos.

PLIBRICO also distributed Plisulate Insulating Cement No. 101 and Plisulate Finishing Cement No. 102. These products contained asbestos until 1972. The Plisulate Cements were manufactured by Keene Corporation in the 1960's. The manufacturer prior to the 1960's is unknown. It is unknown how much, or what type of, asbestos Plisulate Insulating Cements No. 101 and Plisulate Finishing Cement No. 102 contained. Information from old PLIBRICO catalogs suggests that there was an asbestos-containing Plisulate Plastic Insulation Product which was a predecessor to Plisulate Insulating Cement No. 101.

PLIBRICO has seen product literature for Pliseal Boiler-Wall Coating - a product which may have contemplated the use of asbestos. However, PLIBRICO has no information from any source which would confirm or verify that Pliseal Boiler-Wall Coating was ever sold or distributed to any customer, site or facility in Ohio. If such product was ever sold, it was in extremely limited quantities. Pliseal Boiler-Wall Coating was not manufactured by PLIBRICO, and information from current PLIBRICO employees suggests that the product was purchased from Flintkote. Any sale of Pliseal Boiler-Wall Coating would have ceased in 1972; at the same time PLIBRICO removed asbestos from Plicast Airlite and Plicast LWI-24G,

and discontinued the sale of Plisulate Insulating Cement No. 101 and Plisulate Finishing Cement No. 102.

PLIBRICO has seen advertising documents for an asbestos-containing Iron Set refractory cement from the mid-1930's. Information from current PLIBRICO employees suggest that Iron Set was limited in application to pre-fabricated fireplaces. PLIBRICO has no record that it ever sold this product, but information from current PLIBRICO employees suggests that Iron Set was once sold by the Fireline Company, a former division of PLIBRICO.

PLIBRICO possesses sales literature for Plisulate Insulating Block Nos. 201 and 202. Present employees of PLIBRICO recollect that Plisulate Insulating Block Nos. 201 and 202 were asbestos-free, and base this information, in part, on advertising materials from the company in the 1950's or 1960's. In addition, PLIBRICO has learned through the asbestos litigation about the existence of a 1949 catalog which suggests Plisulate Insulating Block No. 201 contained asbestos at that time. Trademark applications by PLIBRICO regarding "Plisulate" also describe "Plisulate" products, including block, as containing asbestos. The earliest trademark application for Plisulate is dated February 21, 1948. A September 13, 1949, registration statement suggests that the product contained asbestos fiber and was first sold in interstate commerce in September, 1939.

PLIBRICO may have recommended that certain customers use asbestos rope, gaskets, millboard and/or sheet in connection with certain applications. PLIBRICO bases this statement upon documents generated in the asbestos litigation. PLIBRICO possesses no documents which indicate that PLIBRICO itself ever sold any asbestos rope, gaskets, millboard or sheet. However, information from current PLIBRICO employees suggests that prior to 1972, PLIBRICO may have, at customer request, purchased limited quantities of asbestos rope and resold it.

PLIBRICO also manufactured and sold a limited line of refractory products that specified the use of vermiculite in the formula. In the mid-1980's, W.R. Grace & Co., the supplier of the vermiculite for PLIBRICO, advised PLIBRICO that the vermiculite shipped by W.R. Grace & Co. may contain trace amounts of tremolite, an asbestiform regulated by the OSHA asbestos standards. It is PLIBRICO's position that the amounts of tremolite, if any, were well below the OSHA standard to qualify as asbestos. The vermiculite sold by W.R. Grace & Co. was processed from ore mined at the Libby Montana mining operation. On receipt of this information, PLIBRICO identified Strong-Lite Products Corp. as a supplier

of non-tremolite containing vermiculite and PLIBRICO switched to Strong-Lite in 1986 as its supplier of vermiculite at that time.

ANSWER: Defendant objects to this interrogatory on the grounds that it is overly broad and unduly burdensome, and seeks information neither relevant to the subject litigation nor reasonably calculated to lead to the discovery of admissible evidence. Subject to and without waiving these objections, Defendant answers as follows: PLIBRICO Company products were sold in the State of Ohio by either independent distributors, or wholly owned subsidiaries identified as PLIBRICO Sales and Service, Inc. This Defendant is unable to more fully respond to the interrogatory absent more detailed information from the Plaintiff as to whether a sale of PLIBRICO products occurred in any particular areas of Ohio.

INFORMATION ABOUT DESIGN/TESTING

14. What is the name, address and job title of each individual who participated in the design and preparation of manufacturing specifications for each such product listed above in answer to Interrogatory No. 5?

ANSWER: George Sellers, deceased.

15. As to each product listed in response to Interrogatory No. 5, please describe how each product was to be cut, shaped, scribed, mixed and applied on the job. (In answering this question, give particular reference as to whether or not the materials were

to be sawed or cut on the job, blown into confined areas, mixed with water in a cement or paste.)
