Dear John:

I have reviewed the Member Company Profiles for 3M which were included with your March 11 letter. At this time, I have no changes to the "first part" – those individuals on CMA committees, task groups and work groups. I do have a number of changes to the "second part" and have noted them on a separate page. As for the "third part" – chemical manufacturing and related facilities – I have crossed out the non-chemical facilities and next to the four chemical plants, have noted the number of employees at that site.

Please contact me should you need any further information.

Yours truly,

Michael C. Harnetty
