SUBJECT: Air and Water Pollution Report - Capco - Ragland

1. We have dust primarily from reclaim operation and machining operation.

2. New and more effective dust collector is being installed at this time and will be completed in about ten days.

3. Guidelines 4-7 do not apply.

4. Our pollution control equipment is functioning well.

For your further information, we are putting more emphasis on the control of water and air pollution with some definite steps.
