COPPER HEADS

...hard-hitting, clean-shooting little cartridges, for target and small game shooting, that are **COPPER** from top to base—~~as~~ *as* ~~deadly~~ *as* accurate as the little copperhead from which they take their name.

Every proud owner of a .22 is going to get a real thrill of delight out of these new Copperheads. They've got the special (non-corrosive) primers and that means—rifle barrels as "clean as a whistle" always!

Ask your dealer for U. S. Copperheads...NOW!
