

REDACTED

DA 512-93

Talked w/ Patti Neven on 12-17-93

- we picked up paint exposure & paid bills
- we have a report that says there is nothing wrong w/ him - he had a viral infection, nothing wrong w/ his liver
- clmt's atty wants us to agree to an AME, but Moresi said no
- we are waiting for clmt's atty to act - he will probably send clmt to another doctor, if he does Patti & Moresi have doctors in mind that they will use
- Once she finds the file she will cc: us on the medical report (its an older report & she thinks we may already have it, but she doesn't know the doctor's name or date of report so that we can find it).
