Dear Dr. Kehoe:

Thanks for your nice letter of December 12, but especially for your postscript on Belknap's paper. I remember your comments at the meeting very well and was rather surprised that something in the way of a correction did not result, but I rather assumed that the matter had been settled between you and Belknap.

If you would care to send in a critical note on his paper, we would be glad to consider it but would, naturally, send Belknap a copy before we accepted it finally for printing.

I don't like the idea at all of our having published material which can be shown to be badly in error.

Sincerely yours,

Philip Drinker
