WALTER D. BULLOCK, Secretary
FELIX EDGAR WOODBURN, Treasurer

July 30, 1931.

To Companies Reporting Secondary Metal Statistics:

As a step towards making our Secondary Metal Statistics of greater usefulness, we are expanding them to cover the soft and hard lead produced from secondary metal sources other than storage-battery plates and parts, lead from battery sources already being covered. To this end we are attaching a form which is self-explanatory, with the request that you furnish the data needed (for August) as promptly as possible after the close of the month. All individual reports, as usual, will be held confidential, and only totals released.

Very truly yours,

Secretary
