BRANCH AND DISTRICT MANAGERS,
AND OFFICE PERSONNEL

RE: #1 PLUS CEMENT,
OR SUPER POWERHOUSE CEMENT,
TO NAVY SPECS

Military Spec C-2861C covers our #1 Plus Cement, and Military Spec C-2908A covers our Super Powerhouse Cement.

The Qualified Product List of manufactured products under these two specifications has been discontinued so that now your customer may request a Certificate of Compliance, including test results on the specific shipment involved.

When you require either of these cements for a job, or for a customer specifying Military Specs, you must indicate this fact on the face of your order so that proper tests are made on that particular batch to enable a Letter of Compliance to be furnished.

This is necessary so we can supply you with the information required.
