Ryan N will probably not make it into Capitol by then but at least he is on list if he gets there.

One more thing. As soon as the signing takes place, I will need to get Downey and heather and deputy secretary to motorcade. I remember that door being locked when you showed us the route last nite so I am worried it will be when we try to depart. Is there someone who will be in that area at that time who can get us into the door?

I just checked with the agent who is protecting that door and she said you will need to clear access to that door with the site agent. I do know there is a designated motor pool route that is a little farther to the within the Capitol.

Yeah...we just need to get out of there before President departs so not sure if "designated motor pool route" refers to his. If so, we will need a route out before

Okay. I checked and secret service is saying they need to approve. I'd have (b) (6), (b) (7) r check on it.

I think I have it solved

Thanks; I went looking and they were all gone by the time I made my way back into the rotunda. So sorry.
