

AR 226-1916

3M FLUOROCHEMICAL SUBMISSION

TOXICOLOGY, EPIDEMIOLOGY AND MEDICAL SURVEILLANCE

PFOA	Perfluorooctanoic Acid
------	------------------------

1. "Two-Year Toxicity/Carcinogenicity Study of Fluorochemical FC-143 [PFOA] in Rats," Review letter from Greg Sykes (Haskell Laboratory for Toxicology and Industrial Medicine) to Charles Reinhardt, October 29, 1987.
2. "Pathology Peer Review Report: 26-Week Capsule Toxicity Study with Ammonium Perfluorooctanoate (APFO) in Cynomolgus Monkeys," Nancy A. Gillett (Sierra Biomedical), Covance Study No. 6329-231, February 3, 2000.
3. "H18636: Slide Review of pancreas lesions from DuPont APFO Study," E.E. McConnell and J.R. Foster, Study No. HN-18636, November 28, 2001.
4. "Review of proliferative lesions of the exocrine pancreas in two chronic studies in rats with ammonium perfluorooctanoate," S.R. Frame and E.E. McConnell, DuPont-13788, October 16, 2003.
5. "FC-143: Two Year Oral Toxicity-Oncogenicity Study in Rats Peer Review of Ovaries," Peter C. Mann (Experimental Pathology Laboratories, Inc.) and Steven R. Frame (DuPont, Haskell Laboratory for Health and Environmental Science), DuPont-15261, June 25, 2004.
