Houston, Texas 77017-5001
FAX (713) 643-8226

Dear Ms. Baen:

The records of Robert Eriven relating to his medical treatment and the interviews with Bob Schull, Joe Morillo, and Phil Mazur have been received. From the data, I believe that Mr. Eriven had hepatic carcinoma that was related to his exposure to vinyl chloride.

Sincerely,

Frank H. Gardner, M. D.
