P.No.171

Produced in Asbestos Personal Injury Cases: Abrams lead and copied to Richard F. Scruggs

24th November, 1952.

The Manager,
Australian Blue Asbestos Ltd.,
WITTENOOM GORGE.

Dear Sir,

MINE DEVELOPMENT. (Your P.481). We agree with your proposed development programme as a maximum to be carried out but we would still like you to examine the position periodically and make sure you are doing the absolute minimum you can safely adopt.

The yardage to be lifted per month may be unnecessarily high judging by present sales resistance and we believe it may be better to aim at increasing your extraction and milling efficiency rather than get large tonnages by passing additional quantities of ore through the mill.

SALES. Mr. K.O.Brown is leaving for the United States and Canada on 29th instant to investigate the sales position.

Yours faithfully,

Managing Director.
