Austin Gates
Vivian Hargrove
Joe Lonsford
A. E. Morley

The Hourly Safety Committee held its regular monthly meeting on July 29th. Plant Manager, Gene Tromblee, was present to welcome the new members. Unfortunately, only one new member was present.

New Business

The holdover members elected Joe Lonsford as the Committee Chairman for the B-Term.

The members present, Mr. Tromblee, and Max Cruse went to the Dept. 44 area to view the 650 psig steam leak. L. N. Vickery guided the Committee to the area and later discussed the alternates being considered for repair of the leak.

The meeting then adjourned without conducting further business.

The next meeting will be held August 26 in the large conference room in the Personnel Building. Please plan to attend. Shift workers should remind their supervisors to make the necessary schedule changes to permit them to attend.
