Dear Irv:

I wish to again thank you for speaking to our site physicians and employee relations specialists at the Du Pont Medical Meeting last week. The comments have all been very positive. Those attending were especially appreciative of your participation and have told me how much they learned from your presentation.

Enclosed for your information are:

- A copy of the Executive Summary of "An Experimental Investigation of the Effects of Caring About: Asbestos." Please keep this document confidential, although the data can be shared.
- Two copies of the "Film Guide" that our supervisors review before showing the videotape, "Caring About: Asbestos," to employees, and
- Two copies of the "Follow-up Material" which is given to each employee who views the videotape in order to reemphasize the educational message of the videotape.

These documents all pertain to the videotape which I gave you last week. We have found the videotape to be very helpful in giving employees the information they need.

I shall be interested in any comments you have on the videotape or other material.

Sincerely,

Bruce W. Karrh, M.D.
Corporate Medical Director
