

Meeting of the Medical Section Industrial Relations
October 4, 1946
63 Park Row, Training Center, NYC

PLAINTIFF'S EXHIBIT

MBL-311

This meeting today of doctors, nurses, industrial relation personnel and management is unique and marks one of the greatest strides in industrial medicine. Never before, to my knowledge has ever a gathering of this kind been brought together to discuss the health and welfare of a great organization such as ours. I am proud to be connected with Socony-Vacuum Oil Co. Not only a leader in the petroleum industry but a leader in the care of the health and happiness of their employees.

I want to introduce to you Mr. C. F. Beaty, Director in charge of Company's Industrial Relations Activities, who made this meeting possible and is champion of good industrial medicine.

Mr. C. F. Beaty

I take pleasure in introducing to you Mr. W.H. Montgomery, manager of the Industrial Relations, who is known throughout Socony-Vacuum as Bill Montgomery one of the finest fellows you ever met. I know when I went on my Western trip with Mr. Herbert, looking over the Medical set-ups, everyone told me wait until you meet Bill Montgomery, he is a swell fellow and that is no lie. He has the highest regard for the Medical Dept. In East St. Louis, *he had a very fine medical* it is rumored that the safety department refused to have anything to do with him as they did not think he was accident conscious. As when he left his refinery in the Dutch East Indies, well mined and blew into the next world, it didn't worry him a bit how many casualties he caused.

Mr. W. H. Montgomery

Our next speaker you all know as Jim Herbert, manufacturing assistant, a finer fellow to work with never could be found. Just a little joke on Jim. We were going to St. Louis from Wichita, Kansas while in the smoking car having a few drinks with a fine bunch of young sailors, having a lot of good clean fun shooting fire crackers. Jim must have looked too serious or maybe it was his bald head but any way they called him Pop and the rest of us his sons. Well I can tell you that

In St. Augustine, FL

made me feel as if I had visited The Fountain of Youth discovered by Ponce De Leon.

Meet Jim Herbert.
