A No, I do not.

Q Do you know what an arcing and grinding machine is?

A Well, if it's the same terminology I had, it's something that you used to go and get the arc on a -- it's grind on a radius of a piece of brake lining I believe, arcing and grinding.

Q Sure. You are familiar with the use of that type of machine to take off the high spots on friction products?

A Yeah, or to get a taper into the product.

Q Sure. Do you know if Gatke Corporation made arcing and grinding machines?

A I haven't the slightest idea.

Q Do you know whether any of the charter members of the Institute that you identify on page 4 were manufacturers of arcing and grinding machines?

A I do not know.

Q What's your understanding of what Gatke Corporation manufactured?

A Brake linings and friction materials and they may have had other products but I don't, you know, I am not involved with the other products.

Q If I could ask you, what did Russell Manufacturing
