Industrial Hygiene - Asbestos Mining Industry
Meeting on Wednesday, January 21, 1948

The purpose of the meeting scheduled for Wednesday, January 21, is to determine:

- (1) Whether the results hoped for would make it desirable to get the information that would be provided by having men who work in the asbestos mining industry in Canada undergo health tests considered adequate by doctors, and
- (2) If so, whether a plan can be developed that would be both adequate and practicable and that would warrant the undertaking considering advantages, disadvantages, and costs involved

Attached is an agenda for the meeting.

The time of the meeting is 10:30 a.m. instead of 10:00 a.m. as previously planned.

J. P. Woodard
