Dear Dr. Machle:

Attached hereto is a letter from Mr. Weston to division managers regarding the filling out of the new jobber report forms.

The first paragraph refers to the changes for the safety work. There is no mention of the frequency of tank cleaning and if this, or anything else which comes to your mind should be included under Remarks, I should like to know it that I may pass the information on to Russ Weston, who will bulletin the field to that effect.

Very truly yours,
