WHEN REPLYING PLEASE REFER TO

CLAIM NUMBER O. D.1276-22

J. D. Lyons

January 28, 1941

Mr. L. M. Merritt
Safety Engineer
Department of Safety & Hygiene
Building

Dear Mr. Merritt:

We are referring the attached claim to you and will appreciate it if you will examine recent evidence filed on behalf of the claimant which is in the form of an affidavit.

Your attention is also called to the medical evidence that is in the record. In the affidavit referred to the claimant alleges that his disability is the result of inhalation of the dust from various grinding wheels which were operated near where he worked. He was employed as a welder, and upon referring to your report, dated May 31, 1939 we do not find where any mention is made of the claimant working near any wheels of this type. After you have completed your examination, will you please return the file to us.

Very truly yours,

James A. Shaw
