Dear Bob:

Thank you very much for your letter of June 20, in which you report progress on the survey of our facilities and operations. I am pleased that you have found in this first look no obviously serious problems and no major departures from safe operations. In view of the complexity of this problem, I believe you should indeed confer again with your advisors and take any other steps necessary to complete your conclusions.

I look forward, with interest, to receiving your report and to discussing it with you in whatever detail seems appropriate.

Sincerely,

George
