Dear Sirs,

Referring to your letter of July 2, 1991,
we would like to inform you that we have reported as Attorneys of Record to
the German Patent Office. We are enclosing

- (1) 2 copy/ies of our letter of Jan. 22, 1991 to the German Patent Office;
- (2) our debit note in duplicate;
- (3) 2 copy/ies of the German Patent Office communication dated July 11, 1991

according to which the following file number has been allocated to the
German part:

P 37 71 910.6-08

Please note that this number has always to be quoted in future correspondence
with the German Patent Office.

The duration of the patent is 20 years as from the date of filing the European
application. The 20th year ends on April 27, 2007.

The usual German annuities are to be paid for maintaining the German part of the
European patent. The fees become due on April 30 and can be paid without
fine within two months (whereafter, if payment is not made, the Patent Office will
issue a reminder that payment is possible with fine within a further 4 months term
calculated from the last day of the month of receipt of the reminder).

The first national German annuity to be paid is the one for the 6th year
due April 30, 1992.

- ☒ Unless we hear from you to the contrary, we will pay that annuity in compliance
with your instructions on or shortly before the due date and report to DuPont.
☐ We are looking forward to receiving your authorization to attend to the payment
of this annuity in good time before the due date.

We note that we are not responsible for paying the further annuities, i.e. we will
not be sending routine reminders in this respect.

Very truly yours,

Encs.
