Subject: Re: Subject: Re: Filming the EPA public hearing on the RFS Aug 1, 2017

Hi Robert

Ok that's fine. My partner Paul Lovelace will be there tomorrow and will reach out if necessary.

Best wishes

Jessica Wolfson

Good afternoon Jessica,

Thanks for reaching out, but we'll respectfully decline your interview request for tomorrow.

I'll be at the hearing venue shortly after 8 AM if you need help with setup or similar, so feel free to call my cell if needed.

Best, R.

Hi Robert,

I'm checking in to see if there is anyone from the EPA whom we could do a brief interview with tomorrow at the RFS panel?

Best wishes
Jessica

Hi Robert,

I am checking in to see if its possible to interview someone from the EPA on Tuesday at the RFS panel?

Looking forward to hearing your thoughts

Best wishes
Jessica

Hi Robert,

Thanks for getting back to me. We are producing a documentary film about the biodiesel industry that will air on the Discovery Channel in Nov 17. Its a look at how the biodiesel industry has evolved over the last decade. The film talks about the Renewable Fuel Standard, its history and where we are now. We would like to include a representative from the EPA who could discuss the RFS and could explain how it works and how the numbers are determined each year as well as explain the purpose of the public hearing and why this is important.

A brief interview in a quiet room during the hearing would be great to schedule.

Please let me know if you have addition questions or need any more info about the film.

I'm including my producing partners, Paul Lovelace and Sam Douglas here.

Best wishes,

Jessica

Good morning Jessica,

I'm a media officer at EPA and will be at the hearing on Tuesday. I look forward to meeting you there and will be happy to help with any filming/production concerns.

I also understand you want to interview someone from EPA? I'll see what we can do, but would you tell me a bit more about your outlet, your focus, and how info from EPA would fit into your story? I'm happy to discuss. My contact information follows.

Thanks, R.
