Subject: Submission to AR 226

April 30, 2003

SUBJECT: Submission to AR 226

Attached is an overview of the mechanics of film formation of aqueous film-forming foam (AFFF) fire fighting agents. Also attached are a February 2003 presentation by Martial Pabon of DuPont and a 1986 paper by Chang Jho of Ciba-Geigy. This information is being provided in response to a request by EPA for more information on the film-forming properties of the fluorosurfactants contained in AFFF agents.

This submission contains no confidential business information (CBI).
