The General Superintendent,
Australian Blue Asbestos Pty. Ltd.,
PERTH.

Dear Sir,

DUST HAZARD: We understand that you are regularly sampling the dust concentration in the air at points in the mine and mill using the midget impinger.

Would you please forward us a copy of the results of these tests over the last few months indicating the dust concentration and particle size of the material caught.

For your information (and for the mine) we enclose copies of a note written by Mr. N. Irving following his visit to the mine in September.

Yours faithfully,

G. R. Thurston

pro General Manager.
